MASTER CLASS

16 CFU = 400 hours

dal 08.1.2026 al 18.02.2026

Lectures and Seminars 5 CFU

6 hours per day, 6 days a week 36 hours per week x **3 weeks** = 108 hours

Practical Exercises 3 CFU

5 hours per day, 6 days a week 30 hours per week x **2 weeks** = 60 hours

Individual and Group Learning Activities

Individual and Group Learning Activities 5 CFU

Individual study, research, and reflection = 144 hours

Final Examination 3 CFU

The training program concludes with a presentation and discussion

WORKSHOP

4 CFU = 100 ore

dal 19.02.2026 al 05.03.2026

The Intensive Workshop, lasting one week, will take place in person in Italy.

It is a "learning by doing" experience in which students will develop projects in the participating countries under the guidance of faculty members.

During this period, site inspections and instrumental surveys will be conducted. The surveys will then be returned and processed by the workshop participants with the assistance of the instructors involved.

Consistent with Health Connect mission to strengthen and develop the role of the architect—and expert in surveying and restoration—the degree thesis must be a project thesis, the elaboration of which may possibly begin within the Master Classes and workshop.
