

Building the 5G/6G Ecosystem: Intelligent Networks and Vertical Innovation

February 13, 2026, 10:00

Aula del Consiglio, DIIES, University Mediterranea of Reggio Calabria

Program and Speakers

Network orchestration and automation for 5G/6G infrastructures: results from RESTART projects and future directions

Giada Landi - *R&D Technology Leader, Nextworks.*

Insight on tech enablers: AI and MLOps for Network Intelligence

Marco Ruta - *Software Engineer, Nextworks.*

Insight on tech enablers: TN/NTN convergence in 5G – research outcomes from ESA projects

Giada Landi - *R&D Technology Leader, Nextworks.*

Practical experiences with 5G/6G-enabled vertical services - examples from SNS projects in automotive, transport and energy sectors

Gabriele Scivoletto - *R&D System & Software Coordinator, Nextworks.*
